Instructions for Playing Symphonic Ukulele or Banjo-Uke Arrangements

Be Sure Your Instrument Is Properly Tuned

To get the best results use a felt pick. The fingers may be used but the quality of tone produced is less beautiful. By the proper use of a felt pick, you will be able to produce an effect very similar to a pipe organ.

Place fingers in accord with diagramed dots and accompanying numbers.

A number of dots or notes barred together are all to be held down with the one finger, whose number is given in the diagram. The marginal numbers show at a glance which fret is being used.

(X) When a string is marked "X" gauge your stroke to a degree sufficient to avoid striking this string, or muffle it by lightly touching with finger.

(◊) The Diamond indicates that this string is open and is to be picked but once.

(○) An unfilled dot indicates that this string is to be held down on the fret it is found and picked but once.
